**3,000**  
serviced erven delivered

Over  
**2,000**  
houses built

Over  
**67MW**  
of Renewable Energy  
Generation added to Grid

## Our Investment Philosophy:

We are committed to making a **POSITIVE DIFFERENCE** by striving to achieve consistent and competitive investment returns while facilitating economic growth and job creation.

We believe **SUSTAINABLE INVESTMENTS** have a greater positive impact on the world around them. Our investments in infrastructure development, housing, schools and education, community property and private businesses, serve as great engines of employment, skills development and economic growth.

Our commitment to responsible investment is central to our investment objectives and we believe this is critical if we want to create positive futures and sustainable, superior, risk-adjusted returns for our clients. By using the United Nations Sustainable Development Goals as the topline framework to drive positive outcomes, we seek to understand our footprint, assess what is possible to change that footprint, then drive and measure positive outcomes. All of our investments are made in strict compliance with Namibian laws, including environmental laws, and we strive to implement international standards and best practices pertaining to ESG as far as possible.

## Who We Are: Old Mutual Alternative Investments, Pioneers in Prosperous Partnerships

Old Mutual Alternative Investments is one of Namibia's leading private alternative investment managers. With over \*NAD 2.6 B (USD 140.4M) in assets under management, we have learned our reputation for creating lasting value.

We choose to make a positive impact across Namibia by partnering with stakeholders to build businesses that deliver competitive returns and unlock opportunities others may overlook.

## Building a Legacy: Investing in Namibia's Future

### Our Business:

Old Mutual Alternative Investments is one of Namibia's leading private alternative investment managers in infrastructure, Private Equity, Debt and Mezzanine.

Established in 2004, we are one of the first alternative investment managers, inheriting a rich history in the investing space as a member of the Old Mutual Group, with more than 177 years of investing experiences in Africa. We aim to deliver consistent, competitive returns to investors, and create a positive, long-term impact in the communities and environment we live and invest in.

Our investments build the houses, schools and thriving businesses that our communities need, as well as provide essential infrastructure such as sustainable power generation, healthcare, education, commercial property and telecommunications.

Our investments, whether through direct funds or those managed on behalf of our investors, are strategically focused on driving growth and development within Namibia. A key example is our co-investment in Namibia's largest wind project, delivering 44MW of renewable energy. These efforts are dedicated to creating a brighter future and building a prosperous Namibia, aligned with our commitment to fostering hope and realizing dreams.
